

REASONS TO CHOOSE HOHENHEIM

The University of Hohenheim occupies top positions in the acquisition of research funds from the German Research Foundation in the field of agricultural sciences as well as in international rankings, for example the „Best Global Universities Ranking“.

- Study at Germany's Number 1 University in Agriculture (rankings: www.uni-hohenheim.de/en/rankings-en)
- Choose from a wide spectrum of subjects and specializations
- Use the opportunity to work on research projects
- Gain practical experience on Germany's largest agricultural experiment stations
- Enjoy one of Germany's most beautiful campuses

The Vision of the Faculty of Agricultural Sciences

A global agricultural system which is productive, environment friendly and social minded, and which is in harmony with society's demand for a multi-purpose orientation.
